

Richard M. Peters, MD
550 Everett Court
Palo Alto, CA 94301

June 12, 1999

Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis,

Now that we have a Democrat for Governor we are all pleased that some of the failures of your predecessors are possible to correct. I am very concerned for the future of my grandchildren and all the other of our citizens that we change the approach to water management. I urge to chart a course to improve water quality, watersheds, rivers and fisheries. We must invest in water conservation and provide adequate fresh water to restore our rivers, bays and fisheries. We must enforce pollution limits to improve water quality.

The construction of dams to further clog our rivers needs to stop and the resources but into restoration not further destruction.

I hope you will make the issue of water and watershed quality a major concern of your administration.

Many thanks for considering this from a loyal Democrat.

Sincerely Yours

Richard M. Peters MD

cc Tom Hannigan
Water Resources Director
